Education

Duke University Pratt School of Engineering, Durham, North Carolina

May 2026

Bachelor of Science in Engineering in Mechanical Engineering

Certificate in Aerospace Engineering

GPA: 3.909 | Cum Laude

Relevant Coursework: Aerospace Structures, Aerodynamics, Mechanical Design

Duke Aerospace Club

Treasurer, Avionics and Payload Engineer, Durham, NC

August 2023 - Present

- Modeled avionics bay in CAD to house necessary electrical components for rocket flight
 - Organized over \$40,000 in budget to maximize team's rocketry capabilities
 - Optimized bulkheads with FEA for 52% weight reduction and to withstand 885N force
 - Machined components such as the black box and servo linkages using a CNC mill
 - Received a perfect design score and the Jim Furfaro award for technical excellence at the Spaceport America Cup
 - Prototyped variable drag air brake system to control rocket apogee
-

WORK EXPERIENCE

Plantd

Design Engineering Intern, Oxford, NC

May 2025 - August 2025

- Blueprinted sensor mount to connect potentiometer with belts to ensure proper alignment
- Developed schematics and CAD models to document PLC circuits and their enclosures
- Designed pneumatics system to control and route 170 psi air to pneumatic cylinders
- Engineered a circuit involving infrared sensors, string potentiometers, and interface cards

SencorpWhite

Engineering Intern, Barnstable, MA

June 2024 - August 2024

- Organized extensive Excel sheets to develop concise descriptions for numerous fasteners
- Created manufacturing sheets to streamline purchase process for integral parts
- Configured Solidworks toolbox to aid engineers and promote product uniformity
- Communicated effectively with partners and outside organizations to accelerate projects

Duke University

Student-Athlete Tutor, Durham, NC

September 2024 - Present

- Intricately explained advanced concepts in STEM subjects at self-coordinated meetings

Control Systems Teaching Assistant, Durham, NC

January 2025 - Present

- Routinely conducted office hours to provide insights into the material for students
 - Oversaw lab periods and instructed students to help them learn LabVIEW
-

TECHNICAL SKILLS

- **Software/skills:** Solidworks, Fusion 360, Onshape, Microsoft Office, Python, Ansys
- **Tools:** CNC Mill, Waterjet, 3D Printing, Lathe
